

Designation: Database Tester

Are you a meticulous Database Tester seeking an engaging position in the vibrant city of Manchester? Join our dynamic IT company and make a significant impact on the reliability and efficiency of our database systems.

Company Overview:

We are a forward-thinking IT firm dedicated to pushing the boundaries of technology and delivering exceptional digital solutions. Our diverse team thrives on collaboration, innovation, and maintaining the highest quality standards.

Key Responsibilities:

As a Database Tester, your role will encompass:

1. **Testing Database Functionality:** Conduct rigorous testing to ensure the functionality, integrity, and performance of our database systems.
2. **Collaboration with Development Teams:** Work closely with developers to understand database requirements, resolve issues, and ensure the seamless integration of databases with applications.
3. **Quality Assurance:** Implement and maintain comprehensive testing strategies and processes to uphold data quality and security.
4. **Test Planning and Execution:** Develop test plans, test cases, and scripts, and execute them meticulously to identify defects and weaknesses in the database systems.
5. **Performance Testing:** Assess and optimize the performance of databases, addressing bottlenecks and ensuring scalability.
6. **Data Security and Compliance:** Ensure that databases meet security and compliance standards, including GDPR and other relevant regulations.
7. **Documentation:** Maintain clear and detailed documentation of testing processes, results, and any issues encountered.

Qualifications:

To excel in this role, you should possess:

- Proven Database Testing Experience: Provide a portfolio or examples of past database testing projects.
- Proficiency in SQL: Strong knowledge of SQL for querying databases and troubleshooting.
- Familiarity with Testing Tools: Experience with database testing tools and methodologies.
- Excellent Communication Skills: Effective communication and collaboration within cross-functional teams.

What We Offer:

- Competitive Compensation: A competitive salary and a comprehensive benefits package.
- Professional Development: Opportunities for continuous learning and career growth.
- Inclusive Work Environment: A collaborative, inclusive, and diverse workplace that values your contributions.
- Challenging Projects: Exciting projects that will challenge your attention to detail and problem-solving skills.

Location:

Our office is conveniently located in the heart of Manchester, providing a vibrant urban atmosphere and access to natural beauty.

How to Apply:

If you're ready to embrace a stimulating role as a Database Tester, please submit your resume and a portfolio or examples of your work to hr@healthgenicsolutions.com. Please use "Database Tester Application - [Your Name]" as the subject line.

Join us in enhancing the reliability and security of our database systems! Apply today to become a valued member of our innovative team in Manchester.
